

Programme

9-11 déc. 2025

**Towards a Quantum Culture: The Different
Interpretations of Quantum Mechanics**

Table des matières

1 mar. 9 déc.

Registration	1
Opening ceremony and institutional welcome	1
Quantum mechanics	1
Commemoration	1
Coffee break	1
Communications I	1
Communications II	2

3 mer. 10 déc.

Quantum mechanics	3
Coffee break	3
Quantum mechanics	3
Communications III - Quantum physics and quantum mechanics in Italy	3
Lunch	3
Quantum mechanics	4
Coffee break	4
Quantum mechanics	4
Communications IV	4

5 jeu. 11 déc.

Quantum mechanics	5
Coffee break	5
Communications V	5

mar. 9 décembre

13:00

Registration

Contribution

14:00

14:00

Opening ceremony and institutional welcome

Contribution

14:30

14:30

Quantum mechanics

Session

14:30 – 15:10

The Transforming Force of Mathematics: From Quantum Jumps to Quantum Mechanics to Quantum Culture, with Werner Heisenberg

Orateur

Plotnitsky Arkady

15:10 – 15:50

Heisenberg's 1925 Paper and the Need for a Reinterpretation of the Concept of Trajectory

Orateurs

Marco Giliberti, Luisa Lovisetti

15:50

15:50

Commemoration

Session

15:50 – 16:20

Commemoration "In memory of Francesco Guerra

16:20

16:20

Coffee break

Pause

16:50

16:50

Communications I

Session

16:50 – 17:10

E(p/in)stein & Quantum Theory Around 1917

Orateur

Alexander Afriat

17:10 – 17:30

Doubling a Quantum Process: the Intriguing History of a Rare Process

Orateur

Adele Naddeo

17:30 – 17:50

The Long Historical Path Towards the Logic of Quantum Mechanics

Orateur

Marco Di Mauro

17:50

17:50

18:50

Communications II	
Session	
17:50 - 18:10	Against the ‘Nightmare of a Mechanically Determined Universe’: Why Bohm was Never a Bohmian Orateur Flavio Del Santo
18:10 - 18:30	David Bohm’s Interpretation of Quantum Mechanics Orateur Luisa Spairani
18:30 - 18:50	From Madelung to Bohm Orateur Gianluca Introzzi

mer. 10 décembre

09:00	Quantum mechanics Session
	09:00 – 09:40 Quantum Mechanics, the Universe, and the Multiverse Orateur Helge Kragh
10:20	09:40 – 10:20 Interpreting Quantum Mechanics Relationally Orateur Carlo Rovelli
10:20	Coffee break Pause
10:50	Quantum mechanics Session
	10:50 – 11:30 Enigmas of the spin Orateur Jean-Marc Lévy-Leblond
12:10	11:30 – 12:10 The Long Quantum Revolution Orateur Jürgen Renn
12:10	Communications III - Quantum physics and quantum mechanics in Italy Session
	12:10 – 12:30 The Arrival and First Developments of Quantum Mechanics in Milan Orateur Leonardo Gariboldi
	12:30 – 12:50 Quantum Foundations and the Milan School: A Historical and Conceptual Perspective Orateurs Luisa Lovisetti, Marco Giliberti
	12:50 – 13:10 Italian Physicists and Old Quantum Mechanics: the Case of Antonio Garbasso and Antonino Lo Surdo Orateurs Matteo Leone, Nadia Robotti
13:10	Lunch Pause
15:00	

15:00

Quantum mechanics**Session**

15:00 – 15:40

Constructivism and the Foundations of Quantum Mechanics**Orateur**

Paolo Perinotti

15:40 – 16:20

Perspectives on Recent Developments of de Broglie's Realistic and Bohr's Complementary Interpretation of the Wave-Particle Duality**Orateur**

Gino Tarozzi

16:20

16:20

Coffee break**Pause**

16:50

16:50

Quantum mechanics**Session**

16:50 – 17:30

Pauli's Interpretation of Quantum Physics**Orateur**

Enrico Giannetto

17:30

17:30

Communications IV**Session**

17:30 – 17:50

Conceiving Light: How Bohr's Epistemic Framing of Light Linked Chemistry, Phototherapy, Ophthalmology, and Quantum Mechanics in 192-1932**Orateur**

Mor Lumbroso

17:50 – 18:10

Between Political Orthodoxy and Personal Conviction: Terletsky's Role in the Debate on Quantum Mechanics**Orateur**

Andrea Battocchio

18:10 – 18:30

From 'It from Bit' to Relational Quantum Mechanics: Wheeler and Rovelli in Historical and Conceptual Perspective**Orateurs**

Marco Sanchioni, Niccolò Covoni

18:30 – 18:50

John Wheeler's Quantum Ecumenism: From Niels Bohr to the Cosmological 'It from Bit'**Orateurs**

Daniele Puleio, Stefano Furlan

18:50

jeu. 11 décembre

09:00

Quantum mechanics

Session

09:00 – 09:40

Fermi, Majorana and the First Developments of the New Quantum Theory in Italy

Orateur

Salvatore Esposito

09:40 – 10:20

Quantum Theory and the Two Foundational Dichotomies

Orateur

Antonino Drago

10:20

Coffee break

Pause

10:20

10:50

10:50

Communications V

Session

10:50 – 11:10

A Quite Elusive Century/Birthday: the 100th Anniversary of Quantum Mechanics, its Achievements and Criticalities, with a Case Study: Franco Selleri and his Philosophical and Sociopolitical Critical Standpoint

Orateur

Luigi Romano

11:10 – 11:30

A Conceptual-Epistemological Account for a 'Quantum Culture'

Orateur

Sara Satanassi

11:30 – 11:50

The Solvay Science Project and the Milestones of the first Quantum Revolution

Orateur

Alessio Rocci

11:50 – 12:10

Leonardo's Holistic Insight on Quantum Inseparability

Orateur

Sara Tagliagamba

12:10
